

TYPES OF TRASH CONTAINERS:

Trash containers are available commercially from many home centers such as Home Depot™ and Lowes™ as well as general department stores such as K-Mart™, Target™ and Wal-Mart™.

If you prefer to shop from the convenience of your home, trash containers are available from hundreds of web retailers. Just do a search on “trash containers” and you will find dozens of selections.

A number of containers is depicted below on this page and are available for as little as \$8-10.00 or as much as \$140.00 and almost any amount in-between. The key, however, is that your trash container should have a **tight fitting lid**.

An Ideal type of trash container will have wheels to allow easy movement.

PLEASE DO NOT PLACE TRASH OUT FOR COLLECTION IN PLASTIC BAGS!

These only attract and allow easy access by birds, squirrels and other animals to scatter trash around the community.

Recycling containers are provided by the Montgomery County Department of Public Works & Transportation, Division of Solid Waste at (240)777-6400 or visit their web site (see below).
